

Dear customer, dear partner,

It is with a great pride that Panthera Dental is officially announcing that it has treated its 100,000th patient. This 100,000th case, which holds great meaning for us, was a Dolder bar for a long-time loyal customer.

We would never have gotten here, 10 years later, without your invaluable support. The last 10 years involved a continued collaboration with you, our valued customers and partners, but also thousands of implant-supported prosthetic restorations, thousands of customized implants and CMF products and thousands of appliances used for the treatment of sleep-disordered breathing. All of which have brightened 100,000 smiles thanks to Panthera Dental's unique solutions, and thanks to you.

We have always placed the patient at the center of the Company's mission, even after this impressive number of cases. Rest assured that this priority is and will remain our top priority. Our teams are also expanding to meet all your needs while maintaining the same quality and prompt service.

We will therefore celebrate two major successes on September 10th: Our 10th anniversary and 100,000 patients treated. That's 10 years of innovation, 10 years of growth, but above all 10 years of precious collaboration with you, our customers, distributors and partners. You are cordially invited to come celebrate with us and discover the Panthera team behind the success of the last 10 years.

We look forward to seeing you on September 10th!

Warmest regards,

---

Gabriel Robichaud, CEO and co-founder of Panthera Dental
