Panthera Dental officially announces Yndetech as their exclusive distributor in Italy

Quebec City/Fano, April 11th 2019 - Panthera Dental, based in Quebec City, Canada, a world leader in CAD/CAM implant solutions and dental sleep appliances, chooses Yndetech, a company based in Fano boasting a portfolio of more than a thousand customers in only two years of activity, for the exclusive distribution of its own products in the Italian market.

Yndetech, a leading company in Italy in the production of semi-finished prosthesis laser melting printed or milled, has signed an important and exclusive deal for the distribution of Panthera Dental products in Italy. Panthera Dental is based on the values that are very dear, namely a very attentive customer care, quality products, as well as innovation, and collaboration with many key opinion leaders in the dentistry and medical field.

This agreement enables Yndetech to complete its own offer of products and services for the dental market, making it a real hub in which it satisfies all the needs concerning the digital dentistry.

Yndetech's purpose is the digitalization of the whole productive workflow in the dental field. The provision of the software for the aesthetical and functional rehabilitation of the patient, together with the provision of the 3D intra-oral and desktop scanners, of the prosthesis' production services and the realization and provision of 3D printers, compose the products and services portfolio of Yndetech.

"This agreement will improve our high-quality offer and unique products covered by international patents", declared Emidio Cennerilli, President & CEO of Yndetech, "as for instance the DIAMART™ bar, based on the patent of the well-known Italian dental technician acting in California, Domenico Cascione."

"We are convinced that this is the ideal partner for distribution in Italy. Our quality and innovative products will be the perfect solution for Yndetech customers." *Béatrice Robichaud, Co-founder of Panthera Dental.*

About Yndetech

Yndetech is a highly technological company, certified ISO 9001 and ISO 13485, based in Fano, acting in the medical field. The structure of 1600 m², completely renovated, includes a state-of-the-art training room for the audio-visual equipment and a dental clinic connected with a real time TV from which cases of real patients will be projected, for the training of dentists and dental technicians.

About Panthera Dental

Both a pioneer and a leader, Panthera Dental combined creativity, science and know-how to develop its proprietary innovative technology and is now able to offer next-generation products to the dental industry worldwide. Panthera Dental's mission is to design, develop and manufacture high-level dental restoration solutions, mandibular advancement devices, and related products using superior quality materials and an advanced proprietary CAD/CAM process.
